

# Bill Addis

## **The nature of progress in designing engineering structures**

public lecture | course activity ARCH-H406

Bill Addis is the author of over 100 publications on the history of building engineering, construction materials and building design. He worked for 17 years as an academic at the University of Reading and later 15 years with consulting engineers Buro Happold. He has recently been Affiliated Lecturer at the University of Cambridge, Visiting Professor at the University of Tor Vergata in Rome, Guest Professor at the University of Innsbruck and is currently Visiting Professor at the University of San Sebastian. He is the Chair of the Editorial Advisory Panel for *Engineering History and Heritage* published by the Institution of Civil Engineers in London and was co-editor of *Construction History*.
